Low Impact Development

LOW IMPACT

Low Impact Development is a comprehensive land planning and engineering design approach with a goal of maintaining and enhancing the pre-development hydrologic regime of urban and developing watersheds.

Stormwater

STORMWATER

Georgia Stormwater Management Manual is a policy document designed to provide guidance on the basic principles of effective stormwater management for Georgia communities.

<http://www.georgiastormwater.com/>

The **Stormwater Manager's Resource Center** is designed specifically for stormwater practitioners, local government officials and others that need technical assistance on stormwater management issues.
